Modular approval. Power listed is conducted. Approval is limited to OEM installation only. The OEM installer must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF Exposure compliance. This transmitter is restricted for use with the specific antenna(s) tested in this application for certification and must not be co-located or operating in conjunction with any other antenna or transmitter. OEM integrators and end-users must be provided with transmitter operation conditions for satisfying RF Exposure compliance. The instruction manual furnished with the intentional radiator shall contain language in the installation instructions informing the operator and the installer of this responsibility. This grant is valid only when the device is sold to OEM integrators, and the OEM integrators are instructed to ensure that the end-user has no manual instructions to remove or install the device.

This Class II Permissive Change adds an Integrated PCB Omnidirectional Antenna. (Manufacturer: Digi, Model: 29000430, Gain: -0.5 dBi)
