NetControl Partners with Digi International

Jun 25, 2010 (Close-Up Media via COMTEX) -- Digi International, a developer of products and solutions to connect and securely manage local or remote electronics devices over the network, announced the integration of the company's Digi Connect WAN 3G cellular router into NetCase, an on-board ticketing system with a touchscreen PC from NetControl.

[100% Free Network Management Software and Helpdesk Tools](#)

Download a completely free network management software solution for IT pros. Spiceworks provides several tools and functionality to help simplify IT such as: network monitoring, help desk, virtualization management, warranty tracking, SQL server monitoring, network inventory & PC troubleshooting tools, and more. [Download Now.](#)

Digi noted it installed its NetCase in 35 of the buses owned by OpenTour, the Societe des Lignes Touristiques created by Cityrama, that offers sightseeing tours in Paris, Nice and Lyon. The Connect WAN 3G connects the NetCase to the NetControl servers via high-speed data connectivity over standard cellular networks. Once connected, the NetCase facilitates on-board ticket sales, card payments using payment terminals, the collection of prepaid tickets and vouchers, and the validation of electronic tickets identified by a reservation code (the tickets are validated using a 2D barcode scanner).

"With the recommendation of M2M Design, a French distributor and technical support provider for M2M solutions, we chose this solution from Digi International because it could
