Digi Enables Wireless Connectivity of Massa Remote Storage Tank Monitoring Sensors

Posted February 3rd, 2010 by [Plantautomation \(/user/plantautomation\)](#)

[vote](#) [now](#) Digi International (NASDAQ: DGII) today announced that Massa Products Corporation is using its XBee® RF modules to enable wireless remote access to storage tank information.

[\(/user/plantautomation\)](#)

MINNETONKA, Minn. (Feb. 2, 2010)- Digi International (NASDAQ: DGII) today announced that

Massa Products Corporation is using its XBee® RF modules to enable wireless remote access to storage tank information.

The module is integrated into Massa's M3 battery-operated wireless tank level sensor and features the necessary drivers for [\(http://beasy deployment into challenging environments. It allows the sensors to communicate with Digi's line of ConnectPort® X](#) [uzz.yahoo gateways, including cellular, Ethernet, Wi-Fi and satellite versions, for backhauling data to a customer's network.](#)

[.com/buz](#)To speed product development Massa integrates the sensors into iDigi™ Tank, a wireless M2M solutions bundle that includes [z?the hosted software and services necessary to quickly and easily build applications for connecting and monitoring remote](#) [targetUrl](#)tanks of liquids, solids and gases. Massa Corporation is an iDigi Tank Monitoring Solution Partner which helps organizations [=http%3adopt and deploy iDigi solutions.](#)

[A%2F%2](#)"Digi allowed us to create a plug-and-play solution that is easy for our customers to deploy and use," said Al de Chiara, [Fwww.pre](#)sales manager of industrial products, Massa Products Corporation. "The sensors screw into the top of a storage tank and [srelease](#)automatically commission themselves with a Digi gateway and the iDigi cloud. This allows customers to instantly connect to [point.com](#)their remote storage tanks, and measure and monitor tank levels from anywhere in the world. It makes it so easy that it can [%2Fdiqi-](#)practically be done by anyone. The iDigi solution allowed us to get to market quickly and focus on our core business of [enables-](#)developing tank level monitoring sensors."

[wireless-](#)"Massa is a leading manufacturer of storage tank monitoring sensors," said Larry Kraft, senior vice president of global sales [connectivi](#)and marketing, Digi International. "Our products and iDigi service help allow Massa's customers to easily access critical [ty-](#)remote tank level information. Our iDigi Tank M2M solutions bundle can reduce the time it takes to connect customers' [massa-](#)remote tanks from months to days."

[remote-](#)Digi's Drop-in Networking solutions include cellular, satellite and ZigBee®/802.15.4 wireless gateways, as well as adapters, [storage-](#)modules, extenders, environmental sensors, and RF-based serial and Ethernet cable replacement products. These products [tank-](#)can be used to connect or network-enable devices and sensors where no wired networking infrastructure exists, where [monitorin](#)access to an existing network is prohibited, or when laying cable is impractical or cost prohibitive.From 900 MHz in the U.S. [g-](#)to 2.4 GHz in Europe, Digi's flexible XBee module is available in various frequencies. Once an XBee is installed, customers [sensors\)](#)can easily change frequency or technology within the XBee product line without redeveloping their product.
