Digi Launches Industry's First System-on-Module with Global 3G Cellular Connectivity

November 9, 2010 9:30 AM EST

- Featuring Qualcomm Gobi™ technology, new ConnectCore™ 3G allows OEMs to develop devices that can connect virtually anywhere in the world without changing hardware -

MINNETONKA, Minn.--(BUSINESS WIRE)-- Digi International (NASDAQ: DGII) today introduced the ConnectCore 3G, the industry's first embedded module with integrated application processing and Qualcomm Gobi technology. Gobi technology supports High Speed Packet Access (HSPA) or Evolution-Data Optimized (EV-DO) networks, the two dominant standards for 3G data networks, from the same cellular radio. Ideal for developing remote device management solutions in energy, fleet management, [digital](#) signage, industrial automation, security/access control and other markets, customers can now

Is Another Bull Market Around the Corner?

If you have a \$500,000 portfolio, you should download the latest report by *Forbes* columnist Ken Fisher. In it he tells you where he thinks the stock market is headed and why. This must-read report includes his latest stock market prediction, plus research and analysis you can use in your portfolio right now.

customers to easily build scalable, secure and cost effective cellular solutions with global network connectivity.

"The ConnectCore 3G is perfect for device manufacturers that are tired of deciding between HSPA and EV-DO or doing two hardware developments to satisfy worldwide connectivity requirements," said Larry Kraft, senior vice president of global sales and marketing, Digi International. "And as a System-on-Module with robust [application](#) processing capability, it is an ideal core platform for OEMs to rapidly develop globally connected devices."

The ConnectCore 3G offers complete support for the iDigi platform, the embedded industry's first ready-to-use cloud [computing platform](#) for M2M network management. The iDigi platform enables secure remote access, control and management of network-connected devices and complete cloud-based application development. Featuring an easy-to-use development environment, the ConnectCore3G can be programmed using iDigi Device Integration Application (iDigi Dia) or open-source Python. It also includes a familiar Eclipse-based integrated development environment that allows Web developers to

rapidly develop embedded applications.

The ConnectCore 3G is a member of the [ConnectCore 9P 9215](#) ARM9-based Ethernet networking module family. Featuring [cellular](#), Wi-Fi and wired versions, ConnectCore 9P 9215 modules are pin-compatible and interchangeable. ConnectCore 9P 9215 modules include two Flexible Interface Modules (FIMs) that allow customers to load and use application-specific interfaces such as Secure Digital, Controller Area Network (CAN), 1-Wire, additional UARTs and others. This allows users to custom configure the module for specific application needs. The modules also offer advanced networking protocols like IPv6, SNMPv3 and SSL.

ConnectCore 3G Digi JumpStart Kits® will be available in December 2010 for \$499. For more information, visit www.digi.com/ConnectCore3G. For more information about iDigi, visit www.idigi.com.

About Digi International

Digi International is making wireless M2M easy by developing reliable products and solutions to connect and securely manage local or remote electronic devices over the network or via the Web. Digi offers the highest levels of performance, flexibility and quality, and markets its products through a global network of distributors and resellers, systems integrators and original equipment manufacturers (OEMs). For more information, visit Digi's Web site at www.digi.com, or call 877-912-3444.

What Terrifies Bill Gates

Bill Gates is the richest man in the world. *Forbes* reports his personal fortune is a bank-busting \$40 billion. So what makes a man this powerful nervous? The fact that software is obsolete. And 70% of Americans are already using the technology that will replace it - without paying a dime to Micro-

soft. Get the full story and the names of 2 companies that will profit most from the death of Microsoft in a free report from The Motley Fool called, "The Two Words Bill Gates Doesn't Want You to Hear..."
