Digi FreshProbe Wireless Food Temperature Probe

The Digi FreshProbe thermometer communicates directly with the Digi FreshTemp App to eliminate pen and paper temperature recording. Simply “Save” on the Digi FreshProbe or Digi FreshTemp App to instantly collect item temperatures, which are digitally managed and securely stored on Digi FreshCloud.

Features

- Replace pen and paper logging with Digi FreshProbe and App.
- Automatic corrective actions when product temperature not in range.
- Alerts by text message, email, and/or phone call.
- Digitized HACCP and FSMA compliant reports.

Specifications

- | | |
|------------------------|---|
| • Temperature Range | Depends on thermocouple, max of -80°F to 300°F (-62°C to 148°C) |
| • Temperature Accuracy | ±0.9°F (±0.5°C) |
| • Response Time | <2 seconds |
| • Wireless Range | 300 feet line of sight* |
| • Battery Life | 2AA, 1-3 years (~1 year transmitting data every 1 second) |

* Actual communication distance will depend on RF environment
