

## SPECIFICATIONS 2017

---

### Digi FreshSense Wireless Sensor

Digi FreshSense sensors reliably measure the temperature in your coolers, freezers, or fridges and record that data around the clock. Digi FreshSense has 24/7 alerting capabilities to significantly reduce the risk of temperature-related food incidents, cut your workload and establish peace of mind.

### Features

- Measures temperature 24/7.
- Reduces energy and staff costs.
- Alerts by text message, email, and/or phone call.
- Digitized HACCP and regulatory reports.

### Specifications

• Dimensions	2.75" x 2.75" x 0.75"
• Temperature Range	-40°F to 185°F (-40°C to 85°C)
• Temperature Accuracy	±0.9°F (±0.5°C)
• Response Time	<2 minutes (2 sec with external probe)
• Wireless Connection	2.4 GHz
• Wireless Range	1 mile line of sight* (North American models only)
• Battery	2 AA batteries
	2+ year battery life, depending on environmental factors

\* Actual communication distance will depend on RF environment
