Digi Smart Guard Wireless Thermometer

Digi Smart Guard is a wireless thermometer for automatic temperature monitoring of hot and cold equipment such as refrigerators, freezers, hot boxes, dish machines, and store rooms. Digi Smart Guard also features a door switch option to monitor access to the equipment. The unit has an option to use an internal thermistor or attach an external thermistor.

Features

- 24/7/365 monitoring of equipment.
- 24/7/365 notification of alerts sent via email, text, and/or phone call.
- Identifies potential equipment maintenance issues in advance of failure.
- Helps to eliminate product loss.
