

# Quick Start Guide

## ConnectPort® X4 Ethernet

### Welcome to your Digi product

**Get started:** This guide helps you with initial product setup. Need more? Find additional product support at [www.digi.com/support/ConnectPortX4](http://www.digi.com/support/ConnectPortX4). Or connect to the online documentation by scanning this code:

**Digi Technical Support:** Digi offers multiple support plans to help you get the most out of your product. For information on Technical Support plans and pricing, contact us at 877.912.3444 or visit [www.digi.com/support](http://www.digi.com/support).

**Documentation Feedback:** To provide feedback on this documentation, send your comments to [techcomm@digi.com](mailto:techcomm@digi.com).

## 1 Verify your components

ConnectPort X4

XBee antenna

Ethernet cable

Power supply

Power cord  
X4-xxx-xxx-A models only

Verify that you have all included equipment. If any item is missing or damaged, contact your supplier.

## 2 Connect the hardware

Connect the hardware accessories as shown.

1. Connect the XBee antenna.
2. Connect the Ethernet cable to the device. You can connect the other end to an Ethernet network.
3. Connect the power supply to the device. Rotate the connected power supply 90 degrees to lock it in place.
4. Connect the power supply to the power cord.

## 3 Next steps

After you have connected the hardware, you will need to configure the ConnectPort X4. Refer to the [ConnectPort X4 Getting Started Guide](#) which can be found at [www.digi.com/support/ConnectPortX4](http://www.digi.com/support/ConnectPortX4).
